Weldmaster™

The master when it comes to protection against welding hazards

Weldmaster™ from Polyco is a premium quality chrome leather welding gauntlet fully compliant with EN12477:2001 Standard for Type A welding gauntlets.

Made from tough-wearing leather, this heavy duty gauntlet has been specifically designed for Type A welding (Mig/Arc welding) but is suitable for a large number of applications requiring heat resistance and protection from minor splashes of molten metal. It offers excellent mechanical protection and attains a maximum EN388 score for abrasion resistance. The cotton liner and additional soft fleecy lining sewn into the hand area makes it comfortable and allows for prolonged use without discomfort to the wearer. The Weldmaster™ is available in a choice of two colours.

CE 0086 EN388 4233 EN407 413X4X

Case Quantity
1 pair per polybag
30 pairs per case
