

Touchstone Sleeves™

Protective sleeves to meet your needs

Touchstone® Sleeves from Polyco are 100% Kevlar® knitted sleeves providing increased protection against cuts, slashes and abrasion.

The seamless construction of the soft Kevlar® fibres will not irritate the arms even during long periods of wear. The Kevlar® aramid fibres also offer increased resistance to heat. The sleeves can be washed by machine or dry cleaned increasing their longevity. Touchstone Sleeves™ are available in varying lengths and styles, including a two-ply loose sleeve style offering increased protection; a tight fitting style without a thumb slot; and variable lengths with a thumb slot - the thumb slot ensures that the sleeve will not slip, exposing the wrist or arm. Choose the perfect sleeve to suit your needs and keep your arms protected.
