### Product Description:

Proguard Asbestos Waste Sacks are made from heavy duty polythene printed with warning to comply with UK and UN law. Strong and durable, these asbestos sacks are suitable for all types of

By law asbestos waste has to be disposed of in a refuse sack with a printed warning. Waste has to be wrapped in a red asbestos sack inside a clear asbestos sack.

### Benefits:

- Highly tear and puncture resistant.
- Red bags are made slightly smaller to fit inside the clear bags.
- Complies with all UK regulations for asbestos waste.
- UN certified.

### Limitations:

- Always remember to use the necessary protective clothing when bagging asbestos waste.
- Must be sealed properly and the clear bag should be covered with the red bag.

### Application:

When collecting asbestos waste, it should be placed in an approved labelled red plastic bag first then covered with a clear approved bag remembering to seal the bag properly. When dealing with asbestos removal always remember to use protective clothing. The Red Bag is slightly smaller than the clear bag to enable it to easily fit inside the clear bag.
