

TECHNICAL DATA SHEET

CF49 AQUACORE NEOPRENE WELLINGTON

DESCRIPTION

The Blackrock Neoprene Wellington is a heavy-duty wellington for the harshest conditions. With a waterproof membrane and cold/heat insulation properties the Neoprene wellington is idea for all outdoor working environments. Offering a composite toe cap and protective midsole reduce the weight whilst maintaining the level of protection around the toe area and underfoot. 300°C heat resistant, anti-slip, anti-static and fuel oil resistant rubber sole.

SIZES

UK 4-14

STANDARDS

EN20345:2022
S5L FO HRO SC
CI HI SR

KEY FEATURES

- Waterproof Neoprene upper
- Lightweight metal-free toe cap and midsole
- Cold and heat insulation toe help with various temperatures
- 300°C heat-resistant, anti-slip, anti-static, fuel oil resistant rubber sole
- Energy absorbing heel to reduce foot fatigue

FEATURE ICONS

TECHNICAL DATA SHEET

MATERIALS

- Non-metallic toe cap
- Non-metallic midsole

TYPICAL INDUSTRIES

- Agriculture & Farming
- Construction
- Oil & Gas
- Aquaculture
- Utilities & Water Treatment
- Forestry & Landscaping
- Marine & Dock Work

CERTIFICATION/MARKINGS

EN ISO 20345:2022 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3L FO SR. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, waterproof uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
