

EVOGuard™C INDUSTRIAL BROWGUARD SYSTEM

The purpose built EVOGuard™C Industrial Browguard System and replacement visors have a host of features designed in-house by the JSP R&D team. Developed over three years, EVOGuard™ adheres to a strict brief to combine maximum comfort and protection with simple, effortless maintenance.

EYE & FACE PROTECTION

The full EVOGuard™ C Industrial eye protection range is made with optical class 1 material, providing UV protection and A-rated impact protection even at extreme temperatures.

COMPREHENSIVE VISOR RANGE

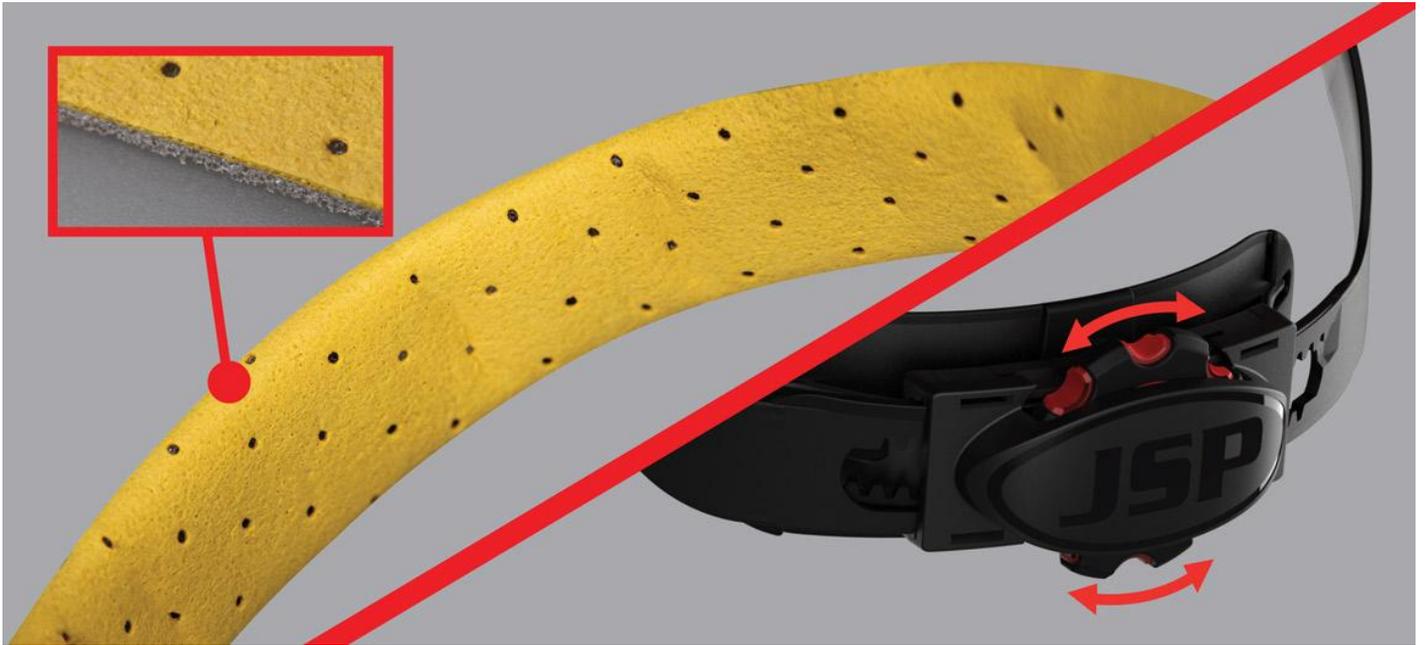

Five high performance industrial visors are available, enabling users to select the perfect visor for their task and price point. Visors are fully compatible with a range of JSP Evolution® helmet models in addition to the purpose built EVOGuard™C Industrial Browguard System.

BALANCED & SECURE

Extensive research with end users established that a balanced, secure fit is essential. Mounted to a browguard or helmet, the self-lubricating nylon hinges hold the visor securely in position through even the

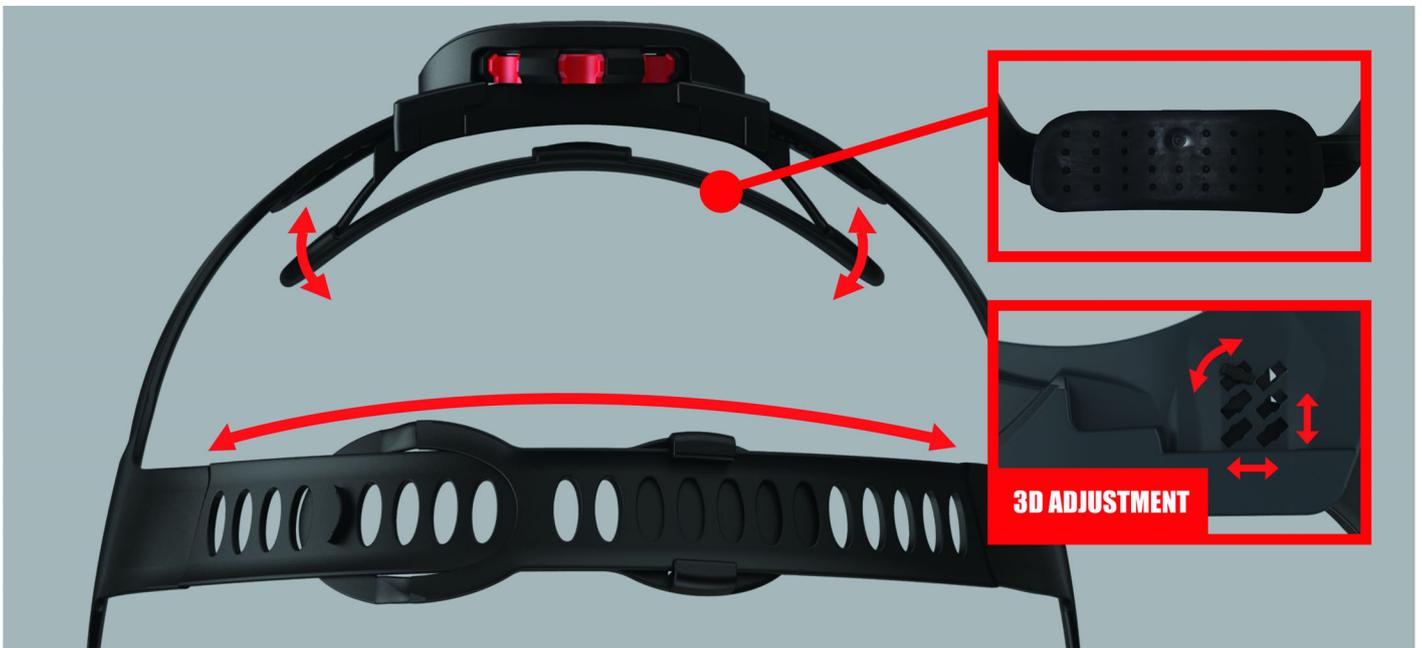

most extreme movements and motions whilst offering balanced weight distribution essential for all-day use.

SUPREME COMFORT

Features the new JSP Revolution® wheel ratchet, tightening securely to hold the unit firmly in position, no matter the task or amount of user movement involved. System comes complete with a wraparound, soft foam backed, replaceable, Chamlon™ sweat band providing superior comfort.

MAXIMUM ADJUSTABILITY

Multiple fitting design allows the wearer to adjust the browguard in three directions; an over the crown slide fitting, combined with forward and back adjustment, maximise compatibility with different head shapes. A large rear comfort pad conforms to the wearer's head shape, resting under the occipital bone and spreading the load for an exceptionally secure and comfortable fit for all users.

PRODUCT COMPATIBILITY

The EVOGuard™ range has been specifically designed to maximise compatibility with a range of JSP PPE, including EVO® helmet models as well as [EVO®](#)  Reviews

Force™8 PressToCheck™ respirator, Springfit™ disposable masks and the Sonis® helmet mounted ear defender range.
