

Personal Trauma Kit

- Contains key components that help to provide immediate response at the time of a traumatic event
- Features a discreet belt loop
- Kit available with a Chito-SAM 100 Z-Fold Dressing (K172)
- Contents supplied in a zip bag

The Personal Trauma Kit provides you with key items to treat a casualty following a traumatic event.

The kit is supplied in a small, high quality nylon case with a handy belt loop allowing it to be worn and carried at all times if needed. The kit is small and reasonable allowing the wearer to have it easily attached to their belt. The bag has two compartments allowing the contents to be clearly arranged ensuring items can be easily found in an emergency. Consists of imperative supplies to control severe bleeds fast, including a SAM XT Extremity Tourniquet, Chito-SAM Patch and a Trauma Dressing.

The kit can also be purchased with a Chito-SAM 100 Z-Fold Haemostatic Dressing (7.5cm x 183cm), stopping lethal bleeding fast.

Kit Dimension: 13x8x20cm
