DESCRIPTION

A non-safety occupational style, the Officer Shoe is fully non-metallic and features a midsole to protect the foot against objects that penetrate from below. With Blackrock's UK HSL GRIP 4 rated HexaGrip sole giving market-leading slip resistance, it is ideal for personnel who are not required to wear safety footwear as part of their uniform.

KEY FEATURES

- Lightweight metal-free composite midsole
- Water-resistant leather upper
- 300°C heat resistant, anti-slip, anti-static and fuel oil resistant PU/rubber sole
- EaziStep padded insole made from breathable PU and mesh for comfort
- GRIP level 4 HexaGrip technology for ultra-non-slip sole

 **HEXAGRIP**

Blackrock's HexaGrip technology features a hexagonal sole pattern that gives significantly increased grip, achieving a 4 star rating in the UK HSE GRIP scheme, far exceeding the international SRC slip resistance standard.

EAZISTEP
COMFORT INSULES

Blackrock's EaziStep insole is made from lightweight PU/mesh that gives all day comfort and relieves tension in areas vulnerable to stress such as the heel area and ball of the foot.

CERTIFICATION/MARKINGS

EN ISO 20347:2012 is an internationally recognised standard which specifies requirements for occupational footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example O3 FO HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
