

Datasheet | Insulated Road/Line Pins

Fencing & Road Line Pins

The Fluid Safety Insulated Road/Line Pins are ideal for eliminating risk from unseen hazards on work sites. Mark out construction zones, road lining works, events & access points with ease.

Certified Safety

Insulated line pins meet the highest industry standards and promote health and safety compliance, conforming to British Standard (BS) 8020 for insulated tools.

More Information

Specifications

- Ideal for use on hardened and compacted ground.
- 1 - meter standard length.
- 16mm diameter fiberglass shaft.
- Supplied with reinforced steel cap and spike.
- Constructed to minimise hand-arm vibrations (HAV's)
- Complies with British Standard (BS) 8020 for Insulated Tools.
