

Product Specifications

Evolution Workplace First Aid Kit (Small), British Standard Compliant

- **British Standard Compliant (BS 8599-1:2019+A1:2026) first aid kit**, specifically designed for small workplaces and low-risk business environments.
- **Durable injection-moulded plastic case** (30 × 25 × 12 cm) featuring a clear white cross for instant visibility and easy identification in an emergency.
- **Includes a comprehensive range of essential first aid supplies**, ensuring your team is ready to respond immediately, straight out of the box.
- **Portable, lightweight case** can be easily carried or wall mounted using the optional [medium bracket//PEVB02] for convenient access and storage.
- **Ideal for offices, shops, small workshops, vehicles, and other low-risk workplaces**, providing reliable everyday safety and compliance.

Ensure your workplace is properly prepared for everyday first aid needs with the **Evolution Workplace First Aid Kit (Small)**, fully compliant with British Standard BS8599-1 for small and lower-risk workplaces. Developed for UK businesses, this kit balances compact size with essential coverage for low risk environments. **Why Choose This Kit?** Every employer in the UK has a duty under the Health and Safety (First Aid) Regulations to provide adequate first aid provision. This Evolution small kit is designed to meet those minimum requirements for smaller staff numbers or lower-risk settings. It gives you peace of mind that you are aligned with both legislation and best practice. **Key Benefits & Features**

- **Comprehensive, ready-to-go contents:** the kit arrives fully stock assembled with bandages, plasters, wipes, dressings, scissors, adhesive tape, etc., so you don't need to source individual items.
- **Organised in a portable case:** the injection-moulded plastic box is durable, easy to carry, and clearly labelled with a white cross and "First Aid" making it simple to locate in an emergency.
- **Space-efficient size:** measuring 30 × 25 × 12 cm, it fits neatly in workplace cabinets, storage rooms, or on a shelf, yet still holds vital supplies.
- **Wall-mountable option:** use the optional [bracket//PEVB02] to mount the kit on the wall, making it even more accessible and visible to staff.
- **Versatile for many settings:** ideal for smaller offices, shops, salons, receptions, service vans, meeting rooms, or light-duty industrial zones.
- **Maintains compliance:** using a British Standard compliant kit shows your commitment to safety and supports audits, inspections, or health & safety certifications.
- **Simple restocking & management:** refill kits and components are available, so maintaining or topping up your kit is easy and cost-effective.

British Standard Compliant (BS 8599-1:2019+A1:2026) In April 2026, the BSI updated the British Standard for Workplace First Aid Kits. This first aid kit remains fully compliant with the latest standard. The contents and size of BS8599-1 kits are based on workplace risk assessments that consider both the number of employees and the nature of workplace hazards. This Small kit is typically recommended for workplaces with:

- 1–25 employees in low-hazard environments.
- 1–5 employees in higher-risk.

The Evolution British Standard Compliant Workplace First Aid Kit in Green Case (small) Contains:

- **First Aid Guidance Leaflet** – provides step-by-step instructions for handling common first aid emergencies.
- **HypaCover First Aid Dressings** – sterile, absorbent dressings that protect wounds and help control bleeding.
- **HypaBand Triangular Bandages** – multi-purpose bandages suitable for slings, limb support, or securing dressings.
- **HypaCover Eye Dressings** – offers protection for eye injuries while helping reduce the risk of infection.
- **HypaPlast Washproof Plasters** – protects minor cuts and grazes from water, dirt, and bacteria.
- **HypaClean Sterile Wipes** – gently cleans wounds by removing dirt and bacteria, supporting infection prevention.
- **HypaPlast Microporous Tape** – breathable adhesive

tape for securing dressings in place.

- **HypaTouch Nitrile Gloves (pair)** – disposable gloves designed to minimise cross-contamination during treatment.
- **HypaCover Finger Dressings** – tailored to protect finger wounds while providing support and cushioning.
- **HypaGuard Face Shield** – provides a hygienic barrier between first aider and casualty during CPR.
- **HypaGuard Foil Blanket** – helps retain body heat in cases of shock, exposure, or hypothermia.
- **Burn Dressing** – sterile gel dressings that cool and soothe burns, while protecting against infection.
- **Clothing Cutters** – designed for safe, fast removal of clothing to access injuries.
- **HypaBand Conforming Bandage** – flexible, stretchable bandages that secure dressings and support injured limbs.
