

## PROFILE

An excellent field of vision...

The safety goggles PROFILE are a revelation thanks to its ergonomic design, its extreme lightweight and adjustable strap.

Very comfortable thanks to its PVC frame, the goggle PROFILE is popular for regular and intensive use.

Available in five versions: polycarbonate or acetate lens, ventilated or sealed, and also a welding version shade 5.

### WEIGHT

**86gr** (Acetate)

**99gr** (PC)

### FEATURES

- PVC frame.
- Fits with respiratory half mask.  
PC or acetate lens.
- Reinforced anti-scratch and anti-fog coatings (KN).
- Fits over prescription spectacles.
- Available in ventilated or sealed version.
- Adjustable strap.
- Pivoting buckle.

### INFORMATION

Lens	PC or Acetate - Curve 5.5
Lens thickness	1.00 - 2.2 mm
Frame	PVC
