

PRODUCT DATASHEET

COMMERCIAL NEO GLOVE

 **Typhoon** **PRO**

Constructed from durable 3mm neoprene, the Typhoon divers glove delivers dependable warmth, flexibility and protection in cold-water conditions.

Glued and blind-stitched seams help reduce water ingress while maintaining comfort, and the reinforced PU grip across the palm and fingers ensures confident handling and long-lasting durability.

A silicone palm print enhances grip in wet environments, while the adjustable hook-and-loop wrist strap provides a secure, custom fit. Finished with a screen-printed logo and available in multiple colourways and sizes, this glove is built for reliable performance without compromising dexterity.

Material

- 3mm Neoprene

Product Code	Colours	Size
310104	 Black	XS / S / M / L / XL
